Hi Cynthia,

TASC can be used on any EPA program with the exception of Brownfields (primarily because BF's their own program), which means non-listed SF site can utilize a task, assuming there are funds. I am working to find out how we apply for this assistance. I'll let you know when I find out. I know in general, we create a SOW (needs) and request through HQ. What I am not sure of is the timing and if there are other steps involved.

Thanks for the reminder ☺

Hi, Jasmin.

Have you had a chance to check and see if this program could be used at a site that isn't listed? I'm trying to put together a list of all the potential resources we could provide to the Upper Animas.

Thanks!

Cynthia

Subject: TASC Contract Support

Hi All,

Was able to get a copy of the TASC contract order that goes into more details about what a TASC can provide. I've attached it. What's not entirely clear to me is whether a site that's not on the NPL can benefit from this program. Jasmin, could you look into this with Freya if you don't already know? There may be non-NPL sites that could benefit from this since they could not benefit from a TAG.

Thanks, Libby
